LARGE NUMBER CLASSY HORSES AT TANFORAN

Racing At Fall Meeting Soon
To Begin With Fast
Animals Entered

With the strongest array of thoroughbred stars in years, the racing plant in perfect shape and an attractive stake schedule arranged, Tanforan opens October 8 for its annual fall meeting of 25 days. J. W. Marchbank, directing owner of the historic San Bruno course, has been busy giving the details pertaining to the opening his personal attention.

Of interest to racegoers this season will be the stress laid on distance races. It will be the policy of the Tanforan association to offer as many races at a mile or more as is possible. The advantages of distance races are many fold. They improve the breed of the horse, make for truer run races and are more interesting to the public than the short sprint affairs.

Some 900 horses will be assembled for the opening of the season. Two new barns are now under construction and reservations indicate that the stabling capacity will be taxed.

A comprehensive cross section of the reservations shows a decidedly higher class type of horse predominating in the lists. The handicap division should be the strongest one in recent years, with good horses from all sections of the country competing for the prizes.

Former Residents Here Are Wed In San Francisco

Miss Lois Bishir, a former Jefferson Union High School student, became the bride of Floyd Owen Felsch of Athens street, last Saturday. The ceremony was performed by Rev. John R. Stevenson of Grace Presbyterian Church, who is a personal friend of the bride and her family.

The young couple are well known in Daly City, where a host of friends wish them happiness in their matrimonial venture.

Mr. and Mrs. Felsch will reside in San Francisco, where the groom is employed.

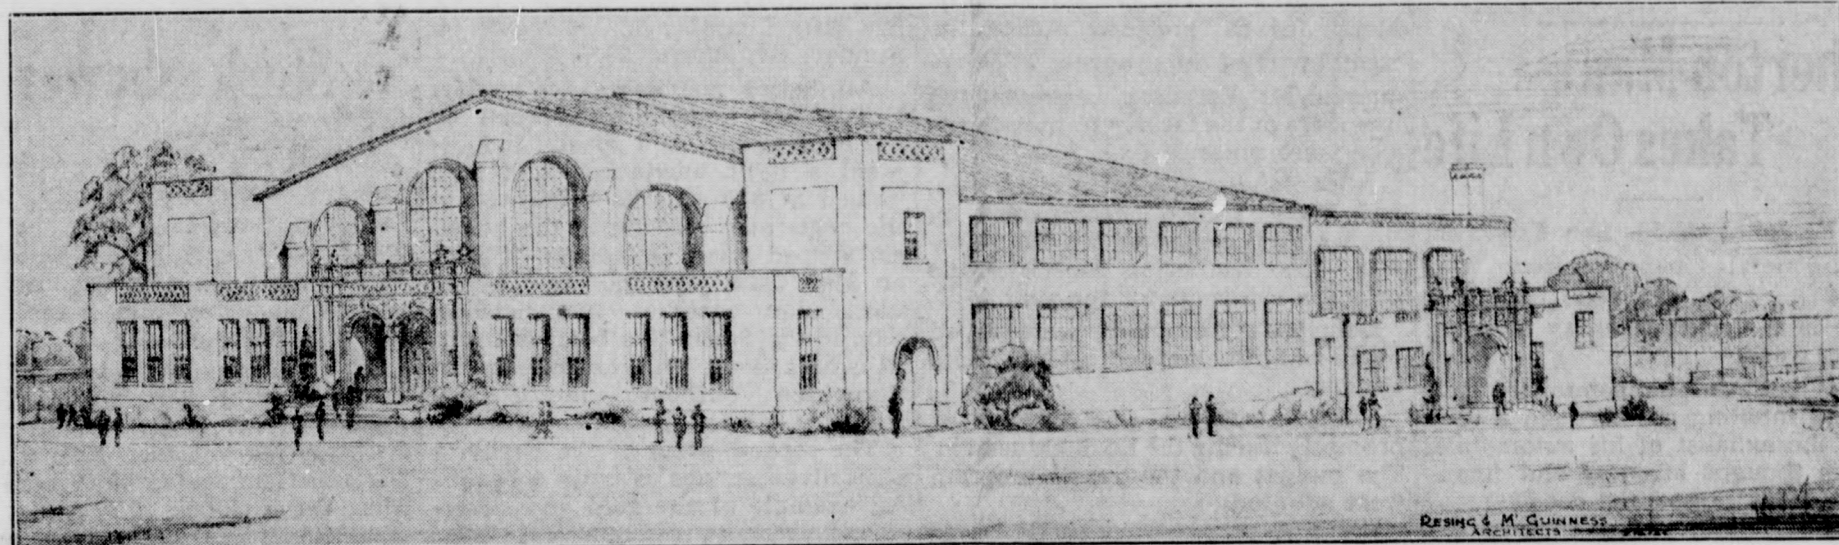

Stork Arrives At Birthday Party

Old "Doc Stork" decided to make a birthday celebration in the home of Mrs. D. Kennedy of Oakland, last Saturday, one long to be remembered by the guests.

In the midst of the festivities the old bird created a great furor. Mrs. F. Foster of Crocker avenue, Daly City, who was among the guests with her three children, was removed to Providence Hospital in Oakland, where a daughter was born a few minutes after her arrival. Both the mother and babe are reported doing nicely.

Mrs. Kennedy formerly resided on Frankfort street in Daly City.

HOW NEW BUILDING WILL LOOK

View of Proposed High School Gymnasium and Swimming Pool.

Improvements At High School Soon To Be Under Way

Superintendent And Board Of Trustees Are Busily Engaged
In Following Up Details To Make Certain There Will
Be No Delay In Beginning Of Construction As Required
In Accordance With Government Grant

Dirt will be flying on the Jefferson Union High School grounds in the construction of the new gymnasium and swimming pool within sixty days. The official offer by the United States government to the high school was received on Tuesday last, and stipulates that work on the project must begin not later than November 15 and be completed within twelve months.

The amount to be paid by the government is stated in its official communication, dated September 11, as follows:

"The United States of America hereby offers to aid in financing the construction and equipping of a gymnasium and swimming pool by making a grant to the Jefferson Union High School District of San Mateo County in the amount of 45 per cent of the cost of the project upon completion, as determined by the Federal Emergency Administrator of Public Works, but not to exceed, in any event, the sum of \$69,545."

It was stipulated that the offer made by the government to the high school should be accepted within three days after the receipt thereof and that notification of acceptance should be sent by telegram to Col. Horatio B. Hackett, assistant administrator, Interior Building, Washington, D. C. This was done by Superintendent Ferguson by authority of the Board of Trustees immediately after receiving the official communication.

In order that the checking of the plans and specifications may be completed as soon as possible, Superintendent Ferguson went to Sacramento on last Saturday to urge the greatest possible haste on the part of the State Department of Architecture, and to discuss details of the plans and specifications. He reports that the state architect is giving his most hearty co-operation.

It will probably require ten days more to complete this work, after which bids must be advertised for and contracts let for the construction of the buildings.

The high school trustees are losing no time in following up every development. They are most enthusiastic over the assurance of a fine gymnasium and swimming pool for the school. In this the faculty and students, as well as the entire community, join.

DISTRICT SCHOOL OF INSTRUCTION HELD BY PARENT TEACHERS BODY

Two Hundred Members In Attendance At All Day Meeting
Held In The Methodist Church At Burlingame
During Week—Many Topics Discussed

Representing 41 units of the Seventeenth District, California Congress of Parents and Teachers, Inc., 200 parent teacher members of San Mateo County attended the all-day school of instruction conducted at Burlingame Methodist Church, September 11, under the leadership of Mrs. Elmer L. Miller, president.

The P. T. A. was at school. It was inspiring to see the friendly and informal gathering occupied with note books and pencils—officers, chairmen and members all interested in adult education and child welfare. A spirited drill in "parliamentary" marked the opening of the session.

Mrs. L. G. Owen, first president of Seventeenth District, addressed the general class on "What the District Does For the Locals," dwelling on the inspiration and education received by hearing outstanding speakers at district meetings, new ideas presented in order to keep up with a radically changed world, and stressing friendliness as the important cornerstone in building more interesting lives for adults and children.

Mrs. P. D. Bevil, fourth vice president of the California Congress, explained the legislative platform adopted by the congress, also reminded members that the by-laws of the National Congress state that the organization is, non-political, non-sectarian and non-commercial. As used by the National Congress, the word non-partisan implies that

the congress, its units, officers and members as such keep free from political partisanship and controversy. This does not mean that the congress will not give active support to legislative measures for advancing child welfare. Mrs. Bevil

"The Gold Standard" Is Pastor's Sermon

Divers weights are an abomination to the Lord, and a false balance is not good, so runs a proverb of ancient times.

On next Sunday morning, at the 11 o'clock hour, Rev. John R. Stevenson of Grace Presbyterian Church will preach a sermon of "The Gold Standard of Our Ancient Faith." The service will be aided by special music by the choir.

In the evening, a gospel service will be held at 7:45. The hymns for this service are chosen by the congregation.

FIESTA OFFICIALS SEEK INCREASE IN ENTRY LIST IN POPULARITY TEST

Texas Fair Director Gives Assurance That Winner Will Be
Royally Entertained On Arrival And During Stay
At Exposition In Lone Star State

Assured by the Texas Centennial Exposition officials that the winner of the San Mateo County Products and Floral Fiesta popularity contest will be given a royal welcome, fiesta officials were stirred into action this week as they mapped new plans to increase the entry list.

Ned Blaine, program director of special events at the Texas fair, in a letter to Frederick Weddleton, advisor to the fiesta commission, said: "It will indeed be a pleasure for us to welcome the winner of the contest and her chaperon to the exposition. We not only will be delighted to accord them admission to the grounds, but also to our concessions."

"We will also take pleasure in seeing that she is publicized while she is here, and you may rest assured that she will leave here feeling she has received a cordial welcome and has been well taken care of."

Fiesta heads today urged further entries in the contest which will give the winner and her chaperon a free, all expense trip to the Texas exposition in Dallas.

The only requirements for entering are that the entrant must be a resident of the county, be between 17 and 23, and submit a photograph of herself attired in a bathing suit. The photo must measure 3x10 inches in size. She must mail or take personally the entry blank and photograph to the Fiesta headquarters at 116 B street, San Mateo.

At a later date William McCarthy, county publicity director, will go to Hollywood to arrange a reception for the winning contestant there at the studios.

MAN DIES IN DALY CITY AUTO CAMP

Succumbs After Night Of
Carousal With Wife And
Number Of Friends

Investigation of the sudden death, last Saturday morning, of Leslie Hunt, 43, Los Angeles stock salesman, in a Daly City auto camp, indicated that the victim might have been poisoned.

Suspicion was aroused by three sets of circumstances. Hunt had been engaged in a family quarrel, he succumbed immediately after being handed a drink of water by his wife, and after death his tongue and mouth were scorched and swollen.

However, Chemist Joseph B. Swimm eliminated the poison theory when he reported that no trace of foreign chemicals could be found in Hunt's stomach. Death resulted from hardening of the arteries and a possible heart attack, it was later reported.

Police investigated reports of a drinking party that preceded Hunt's death. Three men were said to have visited the Hunts that evening, and while two played pinochle with Hunt, the third and younger man took Mrs. Hunt and her sister, Mrs. Ora Hagen, on a round of peninsular night clubs. The tragedy occurred upon the sisters' return from night clubbing, and immediately following a family quarrel.

Mrs. Hagen was allowed to return to Los Angeles to obtain necessary funds and Mrs. Hunt ordered to remain in San Francisco.

The funeral was conducted from the mortuary chapel of W. C. Lasswell and Company, Monday afternoon of this week at 2 o'clock, with cremation at Cypress Lawn Cemetery. An inquest is pending.

Amend Ordinance Pertaining
To Distribution Of Milk
And Cream Within Limits
Of Daly City

An important amendment to Ordinance No. 157 of the City of Daly City was introduced at the regular council meeting, Monday evening of this week. The amendment concerned distribution of milk and cream within the city limits.

Specifications state that milk sold here must be pasteurized in San Mateo County and produced from dairies which are easily accessible by the San Mateo County director of health and welfare. Distributors are required to place their names plainly upon bottles and caps of the milk containers.

Amendments were also made in escrow instructions set forth in Resolution No. 540 of the city. These amendments changed slightly instructions concerning transfer of

UNSURPASSED PYROTECHNICS WILL BE WITNESSED AT BAY BRIDGE FETE

In a pyrotechnic display far surpassing anything of a similar nature attempted before, the bay region will inaugurate the first night of the San Francisco-Oakland Bay Bridge Celebration, November 12, with a dazzling show of multi-colored fireworks that will be visible for miles. Never before has there been such a

gigantic exhibit attempted. Following the opening night similar displays will be held the nights of November 13 and 14.

Every effort is being made to make this celebration an unforgettable experience in the lives of the hundreds of thousands that are expected to attend. Something of the immenseness of the undertaking will be appreciated as the present plans are unfolded. Tons of fire will light up the night in a flaming inferno of red light as huge rockets

and star shells burst in the sky. Piercing beyond the glowing sky will be huge Navy searchlights which, for the most part, will be used to illuminate the Bay Bridge.

With the fireworks display but one of the attractions of the celebration, the days will feature a massive maritime carnival and a huge three-section parade. November 12 will, following the morning inauguration ceremonies, be devoted to a glorified

TANFORAN LEADS IN MODERN RACE PLANS

By J. W. MARCHBANK

For some seasons racing has been conducted at Tanforan with a view of demonstrating the quasi-civic character of the sport. One of the early innovations I inaugurated for the good of the community was the five-day-a-week program; that is, there is racing on each week day with the exception of Monday. The omission of Monday has been made in order to give visitors in our midst the opportunity of going sight seeing, to "stretch their legs" so to speak, and to come back to the races on Tuesday with revived interest.

One season a report came to me that the horsemen had no hankering for the cutting down of the former six afternoons of sport to five afternoons, being eager to pull down as many purses as possible in as short a time as possible and move on, like the gypsy with his tent, to new pastures. I was on the verge of returning to the outmoded system when unexpected circumstances compelled the adoption of the five-day-a-week plan. It turned out to be a very lucky thing, for now the Tanforan way of doing things has been adopted at all the major tracks of California and before long may be in vogue on the courses beyond the Rockies.

The matter of racing on Monday, October 12, Discovery Day, and skipping one of the other days was given full consideration and the decision reached not to race on the holiday. Year by year the celebration in honor of Christopher Columbus has been growing in importance and I figured racing on Discovery Day might detract in a measure from the carrying out of the plans made months ago by compatriots of the great navigator for the observance of the day.

Accordingly, to assist in every way possible in making Discovery Day of 1936 one to be remembered for many years, the usual omission of Monday at Tanforan in the fast approaching season will be made October 12.

As fans know, the fall season of racing begins Thursday, October 8, and will wind up Wednesday, November 11, Armistice Day. Thousands of people from the East and from up and down the Pacific Coast will be in San Francisco in the early part of November to take part in the San Francisco-Oakland bridge celebration scheduled for November 12, 13 and 14. Judging from interest in the racing already manifested, Armistice Day is likely to attract one of the largest crowds in the history of the pioneer course at near-by San Bruno.

FOURTH ANNUAL BASS DERBY TO DRAW CROWDS

The fair sex is not forgotten in the fourth annual and original striped bass derby staged by the Rio Vista Chamber of Commerce, on Sunday, September 27.

All ladies possessing an anglers license are eligible to compete in the contest, but as a special inducement a light tackle rod and reel, valued at \$40 will be presented to the anglerette weighing in the heaviest striped bass. Of course, if Mrs. or Miss Isaac Walton (to use the vernacular) catches the heaviest bass in the derby this beautiful outfit is hers along with the sixteen foot Thompson outboard motor and trailer.

The second prize in the derby, a \$250 silver service, is truly a beautiful example of the gold and silver-

smith's art and one that any household may well be proud of.

It is not necessary to catch and weigh in a bass to enable one to fish in the derby. All you have to do is to procure a fishing card from the derby headquarters in Rio Vista, which will be open continuously after September 17 until the derby starts.

To encourage interest in the wholesome sport, 100 extra prizes are to be awarded at Rio Vista on the evening of September 26 for the heaviest strippers caught in any California waters.

VOTERS: *Don't be fooled*

No matter what they call it...

22 IS A TAX ON YOU!

On the November 3rd Ballot there will appear as Proposition 22, an innocent looking measure called the "Retail Store License." But don't be misled. It's a 1936 model hidden tax... a new scheme to stifle competition and raise prices.

This simple story of two stores explains the plot.

SINGLE STORE

CHAIN STORE

CHAIN STORE

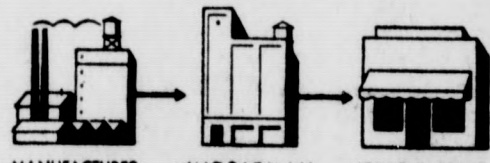

MIDDLEMAN

?

① Here are 2 California retail stores. On the outside they look much alike. Each does a good business. But one is a single store, the other has brothers and sisters and is called a chain store.

MANUFACTURER MIDDLEMAN SINGLE STORE

② The SINGLE store charges ten per cent higher prices, because it gives credit and delivery service and because it buys through a middleman.

MANUFACTURER CHAIN STORE

③ The CHAIN store charges ten per cent lower prices because it eliminates all frills, unnecessary services and in-between expenses and buys directly from producer or manufacturer.

MIDDLEMAN CHAIN STORE

④ You may remember, at one time the middleman sold goods to all retailers. That was when the high cost of living was our biggest headache. But today the chain store eliminates the middleman and the middleman's profits. So the middleman is opposed to chain stores (wouldn't you be—if you were a middleman?)

⑤ The middleman realizes that people trade at a chain store chiefly because it sells for 10 per cent less. Since he can't compete with the chain store method, the middleman wants to put chain stores out of business or force them to raise their prices.

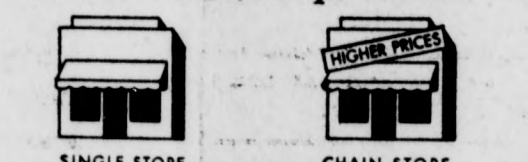

SINGLE STORE CHAIN STORE

⑥ Through the California Legislature he lobbies a bill called the "Retail Store License." This unfair bill would levy a special tax of \$1.00 a year on single stores and \$500.00 a year on chain stores.

SINGLE STORE CHAIN STORE

⑦ That, he figures, may put the chain store out of business so its customers will be forced to pay the higher prices at the single store. If not, the tax can be raised later to \$1,500 or \$2,500 per store.

SINGLE STORE CHAIN STORE

⑧ At least the chain store will be forced immediately to raise its prices and thus lose business.

SINGLE STORE CHAIN STORE

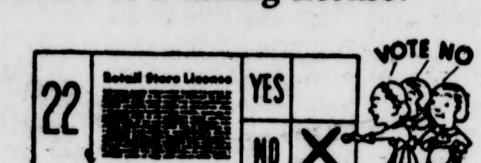

⑨ In either case competition will be less. So the single store can raise its prices and still get more business. This means fatter profits for the middleman who sells to the single store.

⑩ Of course the public will pay for these profits through an increase in prices on the necessities of life. But it's just a question of whether the middleman or the public takes the rap.

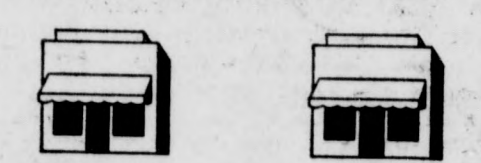

LICENSE TO DO WHAT? TO SOAK THE PUBLIC AGAIN!

⑪ Who would suspect that an innocent thing like a Retail Store License was another scheme to tax the public and fatten the middleman's pocketbook? Voters might think it was some trifle like a dog license or a fishing license!

22

⑫ But wait. Some of the public did suspect. Shortly after this hidden-tax bill passed the Legislature, 136,000 indignant California voters signed a petition that put it on the ballot at the next general election. Now the voters can say a word for themselves. We think that word will be "NO."

SINGLE STORE CHAIN STORE

⑬ So what it all adds up to is this: the innocent sounding Retail Store License is a scheme to subsidize the single store and wholesaler by taxing the public. 22 is a tax on you. Vote NO on Proposition 22.

Better fire protection was asked for in the districts of Bellevue, Lowell, Guttenburg, Edinburgh and Alexander streets from Partridge street to the county line. Investigation is to be made of this area.

E. Cornblum asked permission to erect a small house on Hanover street as per plans submitted. Action was deferred until further investigation could be made.

After discussion concerning the condemnation of a house at 639 San Diego avenue, the city building committee was instructed to report at the next council meeting concerning the city condemnation rulings.

The matter of children playing in the streets at night was referred to the ordinance committee for study and recommendation.

The Pershing P. T. A. sent a communication asking permission to use the city hall on October 28 for a whist party. It was also asked that supervised play be continued for a period of six months at the General Pershing School. Both petitions were granted.

A petition from the Peninsula Division of the League of California Municipalities, inviting the council to attend a meeting at South San Francisco on September 17, was read.

The Board of Fire Commissioners recommended the council repair the floor of fire house No. 1. The recommendation was referred to the chairman of the fire committee, who was given power to act.

Related letters of invitation to the League of California Municipalities convention at Santa Monica were read and filed.

Mayor Paul G. Selmi and all councilmen and city officers were present. Minutes of three previous meetings were read and approved.

LIGHTS FEATURE CELEBRATION OF BAY BRIDGE FETE

(Continued from Page 1)

"Harbor Day," while November 13 will offer as its star attraction a massive day parade divided into three sections representing the Past, the Present and the Future in the development of the San Francisco metropolitan area. The second section will also devote a prominent place to the many county floats entered.

Climaxing the three day celebration will be one of the most colorful parades ever held in the history of San Francisco. Known throughout the civilized world as "the city that knows how," in both the realms of hospitality and entertainment, San Francisco will surpass even the gaiety of its justly famous Portola Festival and Exposition of 1915 in its glittering Bridge Pageant of Lights the night of November 14. The parade will proceed up Market street from the Ferry Building to pass in majestic revue before the grandstands in the Civic Center.

Brilliantly lighted, each float will be representative of one of the world's historic or romantic bridges. Singers and dancers, representing the nations in which the bridges on the floats are located, will add color and music to the parade. Among the historic bridges which will be depicted are the "Rainbow Bridge of the Gods," "Cloud Bridge to Valhalla," "Tam O'Shanter Bridge," "Bridge of San Luis Rey" and the "Bridge on the Willow Plate," and dozens of others.

Street decorations will create an optical illusion in lights and color that will continue the likeness of the Bay Bridge far past its actual terminus. Market street will be decorated to suggest an extension of the bridge from the Ferry Building to the Civic Center. Silver garlands suspended in loops from the electroliers over a base of rainbow-hued canvas and banners to represent the pylons of the bridge around each light standard will create the impression that pedestrian and street traffic will actually be traveling on the floor of the bridge.

To further carry out this effect, eight of the principle cross arteries of Market street will carry across the intersections replicas of eight of the great bridges of the world. Banners representing the heraldic design suitable to the period of each bridge will be part of the decorations. At night these bridges will be brought out in clear relief through the use of indirect colored lights. At various key places in the city individual bridges will be erected, with the possibility that the famous Marble Bridge of Pekin will be reproduced at the entrance to Chinatown.

Friend Honored By Stork Shower

Mrs. Maud Briscoe of Edinburgh street was pleasantly surprised in her home, Thursday afternoon of last week, by a group of Relief Society women with a stork shower.

An enjoyable afternoon was spent in games and in viewing the many lovely and useful gifts presented to the expectant mother.

Later, refreshments were served to the following: Mesdames Frieda Pietsch, Fredrikka Duffner, Ethel Wood, Katie Sadler and Agnes Felsch of Daly City, Irma Williams, Henrietta Andersen, Ruth Morgenegg, Lillian Andersen, Beatrice Simister, Vivian Anderson and Hertha Schellenberg of San Francisco, Hazel Haddock of Idaho, Mabel Wooley of Oakland and Mrs. Briscoe.

"I like even the Gas bills!"

I like everything about my new gas heater. It is so clean and good looking. In no time at all our house is as warm as toast. I like even the gas bills. Last winter I used my new gas heater a great deal but my gas bill was only a few dollars higher. Goodness knows, I don't run an extravagant household and budget out money closely. I can't see why any woman who needs better heating in her home would have anything except a clean, efficient, modern gas heater.

Modern Gas Heating...

has proved its economy and cleanliness in thousands of homes. Today's gas heating equipment is smart looking, costs little to buy and to operate. At your dealer's or this company all types of gas heaters can be purchased on low monthly payments.

ROOSEVELT INCREASES RAPIDLY IN STRENGTH

By J. W. MARCHBANK
Pioneer in Frontier Mining Work

Humorists have a way of "seeing the light" and speaking right out in meeting when they do see it. A few observations by Frank Sullivan in The New Yorker certainly hit the nail on the head when it comes to the present political situation. Asking the rhetorical question:

"How do things stand in the middle of the campaign?" the well known laugh provoker goes on: "Well, at any rate the candidates remain the same. The Democratic nominee continues to be Mr. Roosevelt, and the Republican ticket is still headed by John D. M. Hamilton, with Colonel Frank Knox of Chicago for vice president and Governor Alf Mossman Landon of Kansas for second vice president.

Sullivan also reports a number of sad cases of collapse among the ranks of the Roosevelt-haters, men who hate the President for betraying his class, as they call his devotion to the cause of all the people. At Newport, Rhode Island, Sullivan heard a multi-millionaire who had been working nineteen and twenty hours a day hating the President was warned by his physician to cut down on the hating, but he refused to heed the warning. The man of money is quoted as saying his only regret is he has but one life to lay down for the Liberty League.

The conservatives generally are in wild disorder. The liberalism of Franklin Roosevelt apparently has taken away from them whatever wits they ever possessed. As an acute commentator said recently, pronouncements by the opposition to the President are mostly unthinking outpourings generated by fear. A typical organization, the members of which appear unable to see beyond the ends of their noses, is the American Bar Association. At a convention in Boston the lawyers resolved against ratification of the child labor amendment to the constitution, against a constitutional amendment to give Congress wider powers to legislate for the national welfare, against the Social Security Act, against the Public Utility Holding Company Act, and against investigation of abuses of civil liberty.

Another institution that is fighting tooth and nail every forward-looking project of the President is the United States Chamber of Commerce. That body is not only against the federal government making grants-in-aid to states for public works, against using the tax power to legislate for the public welfare, against the government doing anything about crop control, or arbitrating between capital and labor.

Even such a bald outline of the principles, or rather lack of principles, of the men fighting the President, demonstrates the necessity of keeping him in the White House for four years more in order to finish his work on behalf of the people.

Fervent hopes are held by men and women whose hearts are in education that the sphere of operations of the Kansas-Coolidge, as Alf Landon is sometimes called, will not be enlarged from state to nation. Schools and teachers in Kansas have fared badly under the "balance the budget" policy of the Republican candidate for the highest office in the land.

In opposing the tax on corporation surpluses, Landon aligns himself in the "simple" school of political economy made famous by Coolidge.

Secretary Ickes is a remarkably forthright speaker and now and then coins a phrase that should be remembered and probably will be, such as characterizing Landon as the "strong silenced man."

INVESTIGATE NOISES

Any usual noise about the engine should be promptly investigated. A squeak or rattle that comes at regular intervals may be located in one of the revolving parts; if not regular, it may come from non-revolving parts, such as springs or brakes.

CHARGE GAS TAX MEASURE IS BUNK

Automobile Association Says Proposition Submitted Is Deceiving

A duty to combat use of the "Save The Gas Tax" principle as a device to achieve ends that have no relation to protection of gasoline tax funds is the chief reason why the California State Automobile Association is opposing Proposition No. 10 on the November ballot, declared J. H. Threlkeld, chairman of the legislative committee of the motorists organization, in a statement today. "In opposing Proposition No. 10, the so-called 'Save The Gas Tax' initiative measure, the California State Automobile Association is acting in response to a very clear obligation. That obligation exists by reason of the leadership exerted by the association for many years in protecting gasoline tax funds. One of the primary obligations of leadership is not to betray or mislead. By the same token, there is also an obligation to resist attempts at betrayal or deception by those who would capitalize upon the success of a cause for their own selfish interests.

"We find the proponents of Proposition No. 10 seizing the 'Save The Gas Tax' banner and seeking to enlist the already victorious forces in support of objectives which have nothing to do with saving the gas tax. That fight has been effectually won, and there are no sound reasons for assuming danger of successful attacks on gasoline tax funds.

"Proposition No. 10 is laden with jokers, notably one that would prevent the Legislature from imposing a proper and equitable fuel tax on Diesel-operated trucks. There are other provisions which, if not in the joker class, are at least ambiguous and of uncertain effect.

"Having played no small part in bringing about the present strongly safe position of gasoline tax money, the Automobile Association is determined that the principle involved shall not be degraded or exploited. To take any other stand would be to betray an obligation."

Distributor Break

Short circuits can be caused by a distributor cap cracking and allowing the current passing through it to jump from one contact point to another.

If a new cap is not available temporary repairs can be made by enlarging the cracks by scraping with a knife blade and filling them with ordinary sealing wax. The cap should be replaced with a new one as soon as possible.

EXPERIENCED HOUSEWIFE CLUB

(By Maude Larue Ives)

The following recipe is a non-fattening combination made of a kind of macaroni, which our new member informs us may be obtained in different colors from the vegetables of which it is made. The name of this product is vegetable macaroni. Many folks are fond of dishes made from the macaroni family, but refrain from eating them on account of their non-reducing qualities. This problem is now solved for us in the following:

One Dish Meal

One pound ground meat, one-half pound vegetable macaroni, one large or two medium onions, one egg, six stalks or one small head of celery, one can tomatoes, one-half teaspoon of salt, one-eighth teaspoon pepper and a dash of thyme, savory and cayenne pepper.

Add to the meat one finely chopped onion, two stalks of finely chopped celery, a little salt and pepper, one well beaten egg and enough bread crumbs to mold into balls. Fry. For the sauce, fry the remaining chopped onion and celery until tender, then add the tomatoes and seasoning. Let simmer from thirty to forty-five minutes.

Boil vegetable until tender, blanch and put in baking dish in layers of vegetable, meat balls and finish with vegetable. Pour sauce over all and let bake twenty minutes in moderate oven. If sauce becomes too thick water may be added. — From Mrs. W. H. Hall, 66 Parkview Avenue, Daly City.

Apple Dumplings

Pare and core tart apples. Make a piecrust dough, not too rich, and roll out. Cut in squares large enough to cover an apple. Set apple in center of dough square and fill core cavity with sugar and a bit of cinnamon or nutmeg, also add a small piece of butter, then bring corners of square together, pinching all edges together. Place apples in shallow greased baking dish, prick with fork and place in oven heated the same as for apple pie and bake until tender. Serve hot with milk or cream. — From the Farmer's Wife.

One of our club members, Mrs. Edmund Cavagnaro, several weeks ago, sent in a recipe for artichoke omelet sandwiches. One of our readers tried them and found them to be delicious. If you wish at any time copies of recipes which you have lost, write to or phone the Experienced Housewife Club, Daly City Record, 3317 San Jose Avenue, telephone Randolph 3215. Also send in a recipe soon.

Business Revival Gives College Men A Break

College students graduated this year are finding more jobs awaiting them than at any time since 1931, according to Robert F. Moore, secretary of appointments at Columbia University, New York. Mr. Moore reports that large industrial and business organizations are "faced by an alarming gap in their personnel, as the result of depression economies."

Fresh evidence that business is rapidly returning to normal activity under the stimulus of the New Deal is to be found in the fact that organizations which laid off large numbers of employees are seeking to rebuild from the bottom and are taking on young college men to fill ever increasing vacancies.

Mr. Moore reported that whereas the top salary a young graduate could expect last year was \$100 a month; compensation this year has risen to \$125 for the better positions. "Jobs that formerly paid practically nothing," he added, "now offer up to \$85 a month. With business gaining, many companies are confronted with the fact that for five years they have failed to train men to fill-in the better jobs. Now the men at the top are in need of assistance. They are seeking in the college field young men who can be trained quickly to meet the pressure of renewed business activity."

Long Exhaust Pipes

Long exhaust pipes are useful for other things than carrying the noise of the engine beyond the car where it will be less disturbing to its occupants.

They offer the car owner a pretty easy opportunity to check the smoothness of the engine's operation after it has been thoroughly warmed up. A break in the purr at the end of the pipe is a sign of a missing cylinder.

NOT ALWAYS FLUID

The addition of fluid to the master cylinder is not the answer to low brake pressure in hydraulic braking systems nearly so often as the car owner would like to think. Such systems are bound to pick up air with the passage of time and they should be "bled" periodically before the addition of new fluid.

Smoking Birds And Cigarette Butts?

Now Forest Rangers are wondering if cigarette smoking birds are to be added to the list of fire hazards. They are worried over the discovery of four cigarette stubs found in the remains of a bird's nest in the eaves of a burned building at Dorris.

Rangers hope that it is only a queer bird who has the snipe shooting habit as they have plenty of troubles preventing careless travelers who toss away their burning butts from causing forest fires.

POINT SAN PEDRO ROCKAWAY BEACH

Top news of the past week here is the purchase by Harry Rees of a strip of land adjoining his Pedro property, running parallel to the new highway now under construction. The land is part of an old Spanish grant, conferred in 1782, and changing owners several times before it came into the Rees property last week. For many years the strip (1,900 feet long) was part of the Tobin estate. A section of it was sold (1917) to Benedetti Company. Mr. Rees bought it from Dr. and Mrs. Wright of San Francisco. Mrs. Wright, who was formerly Mrs. Byrne, had some interesting facts as to the history of the land and its owners. The newly acquired Rees land extends from the line of sea at Pedro Beach, across the rich, flat farming meadow (at present planted in beans), intersecting the old Pedro road, and stretching up to the top of the long mountain slope that bounds San Pedro Canyon. Mr. Rees spoke warmly about the former owners and their graciousness in giving him a chance to purchase the property.

Dr. Shawk, of Rockaway, is at home again after his trip to Reno with his son. Upon his arrival, he and Mrs. Shawk, who met him in San Francisco, stayed in town several days, shopping, taking in a few movies, and visiting friends.

Mrs. John Valentine was honor guest at a baby shower last Thursday, given by Mrs. Bicknell. About eighteen other guests were present at this friendly shower for the prospective first arrival in the Valentine family. Refreshments were served, and everybody reported an enjoyable afternoon.

Julia, of the Whitehouse Cavern, took a trip to San Francisco last week for a few days' rest and recreation, which she needed, for the beach resorts have been unusually busy because of the week of fine, warm weather, and both Julia and Gus have been dashing about, attending to their many visitors.

"Tippy," clever sheep dog owned by Chris Pavlos, was struck by a motorcycle, Wednesday night a week ago, and badly hurt, her paws being cut severely and her back sprained. Her owner is carefully nursing his dog back to health, and hoping she will entirely recover. "Tippy" was mother to little fuzzy "Amos," the pretty pup that was known and petted at the Troglia store about a year ago, until a sad fate of illness overtook him and carried him off.

Mr. and Mrs. Fred Bohr came down from their summer home over the week end, bringing Leo Harris and—of course—"Bozo." The Bohr terrace garden is gradually shaping up to surround the house with bloom.

The newly opened Pedro Coffee Shop seems to have been definitely closed. This is regrettable, since Point San Pedro needs something of the sort in the center of the village.

Rockaway rumor whispers that "the joke is on Gus." A few nights ago a prowler tried to get into the tavern. Gus happened to be wide awake, preparing to go crawling. He surprised the invader and chased him away. Then, showing Julia how to use his pistol, should the robber return, the gun went off and broke a window. After this Gus will shoot his burglars outdoors.

In this sultry weather, one misses the refreshing shade of the old pine trees that stood at the corner, where the highway curves to pass through Rockaway.

Dr. le Fevre and his pretty young bride spent last Saturday and Sunday at their summer cottage. Mrs. le Fevre looked charming with a saucy military cap on her dark hair, and her uncle called her "Captain Ruth." The le Fevres are descended from Napoleon's famous Marshall le Fevre, a man well known in French and world history.

SHARP PARK NEWS FLASHES

The Say Sew Club gave a dinner and theater party, Wednesday evening of this week, in honor of the birthdays of three of their number: Mrs. Snell, Mrs. Stammer and Mrs. McCallen.

Peter Bistolfi was confined to his home for three weeks due to an injury over his left eye. The accident occurred while Peter was playing in the church yard on Tuesday evening.

The meeting of the Sharp Park Improvement Club will be held on the first Monday evening in October at the regular time.

Mr. and Mrs. Jack Sharp were week end guests at the Sayers family.

Master Richard E. Matlock has a baby brother, one Donald Lewis Matlock.

Fire broke out in the hills back of Mori's Point, last Tuesday. Fire Marshal Werder and his department from Redwood City were called to the scene. There was no serious damage done.

Mrs. Fred W. Roth is the proud owner of a pair of peacocks, which were given to her by Mr. Roth on her birthday.

Victim of a fractured left foot was Fred W. Roth, who was confined to the St. Francis Hospital during the last week end. He is back on the job again with daughter Marjorie acting as chauffeur.

Mrs. Frank Halling came out 50 bucks to the good when she played the horses last week.

The San Mateo Progressive Club held their regular monthly dinner meeting Monday evening, September 14, at the Skull Kracker. Forty-five members were present. From all reports it must have been a most interesting meeting.

Battery Defects

Good engine performance cannot be expected if defects are present in the battery or its connections.

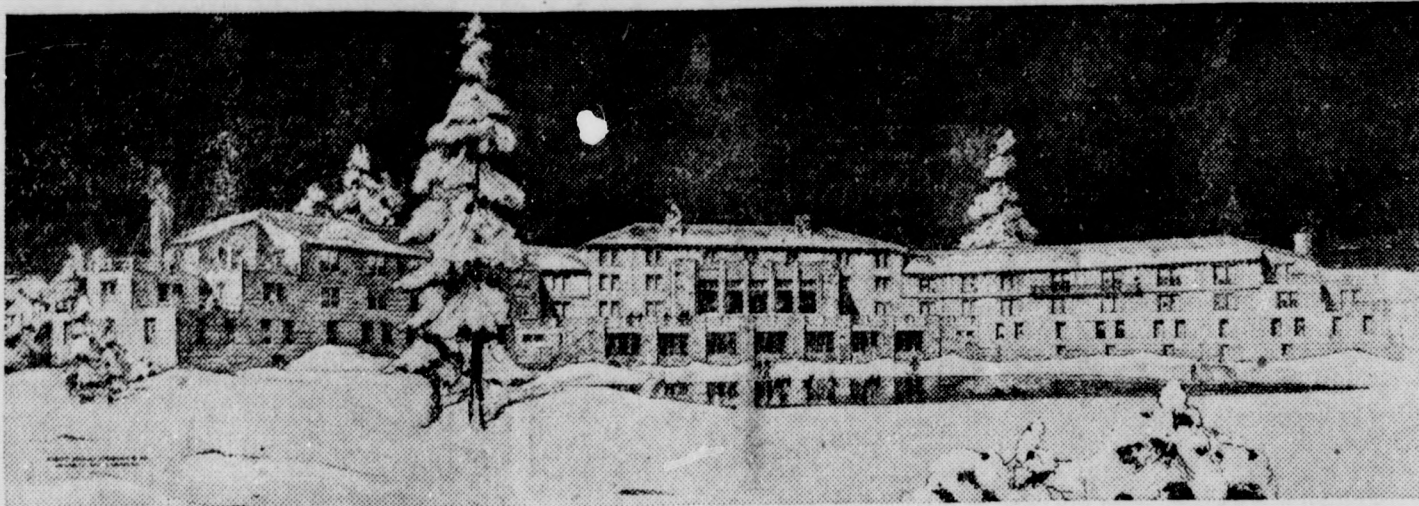

This includes the circuit from battery to coil, spark plugs, distributor, ignition, wires, ignition points, or condenser.

water system, is rapidly nearing completion. Built at the junction of Stanley and Livingston streets, Pedro, it will supply water in fuller measure to the houses that line the cliffs that edge the Shelter Cove road, and the cabins along the beaches.

Wynn Riddock, former resident of Pedro, paid his friends a visit last Monday, making the rounds of a number of houses before he took the return bus for his home in San Francisco.

Honor Guest At Birthday Party

Frances Hopkins, daughter of Mr. and Mrs. Myron Hopkins of Miriam street, was guest of honor at a party given Saturday afternoon of last week at American Legion Hall, on San Diego avenue, celebrating her sixth birthday.

Mrs. Hopkins was assisted in entertaining the children by Misses Melba Nelson, Dolores Perry, Edna Page and Dimples Lane.

The afternoon was spent in playing games, after which tempting refreshments were served. A huge birthday cake occupied the center of the table and little favors found at each place at the table delighted the children.

Frances received many lovely gifts from her little friends.

Those present were Ernestine Ferrera, Bonnie Jean McHugh, Betty Conroy, Jean and Gloria Bacigalupi, Marjorie and Kathleen Schriber, Kathleen Coolish, Lucille and Shirley May Shrieve, Jean Michaelson, Yvonne Hume, Betty Wise, Carol Schille, Barbara Ford, Clorinne and Jackie Cunes, Dolores and Mary Lee Spoulos, Joan Hopman, Phyllis Lane, Nadine Bledsoe, June and Shirley Coolidge, Linay Baunet, Mary Timmis, Dorothy Lakey, Kathryn Brooks, Shelia Cunningham, Ronald Coolish, Frankie Shrieve and Terry Cunningham.

Jefferson Indians Enter P. A. L.

Once more Jefferson Union High enter the Peninsula Athletic League, with a faster and lighter football team than ever before. It withdrew several years ago because of lack of material. But now, with a new coach, good material and plenty of spirit, Jefferson returns for a fresh start. The Indians have a good chance to win many games and are rated one of the best teams on the peninsula.

Several of last year's players have turned out. Among them are Leon Stansbury, Henry Telleria, George Young, Kendal Van Pelt and Alfred Silicani; these boys are all line men. In the backfield is Harry Rose, that smashing fullback. Pete Scalin and Roy Wilson are halfbacks, and Stanley Simpson fills the quarterback position capably.

The schedule for the year, including both practice and league games, is as follows.

September 18—Lick J. C. Here.
September 25—Watsonville. There.
October 2—Sequoia. There.
October 9—Burlingame. There.
October 16—Palo Alto. Here.
October 23—Bellerme. There.
October 30—South City. Here.
November 6—San Mateo. There.
November 14—San Jose. Here.

The game with South City is always important. The Jefferson and South City teams have been rivals for a good many years. There is always plenty of fighting spirit displayed at these games.

This afternoon the Indians have a game with Lick-Wilmerding, a team from San Francisco.

This is only a practice game, to be sure, but everybody should attend it and give the team the support it needs.
